

IDOS Consultants

Nothing is achieved unless its implemented.

(One Stop solution for all Industrial Engineering Techniques)

DO THE CURRENT STATE MAPPING OF YOUR FACTORY

METHODOLOGY:

- Training
- Factory visit
- Selecting the product line where current state mapping is to be done
- Observe the process and recording all required information from raw material to finish goods
- Kaizen workshop and brainstorming
- Drawing the CURRENT STATE MAP and proposing FUTURE SATE MAPPING.

Charges:

Rs 25,000 per assembly line

Duration: 2 days

Advantages:

- The efficiency of that product line is known.
- How much is capacity is under-utilized is calculated along with Value-Adding activities (NVA) and Value-adding activities (VA)
- Where you can improve your productivity, at what point (kaizen burst) will be known
- Scope of improvements in term of safety and ergonomics.
- Hidden cost will becomes less
